Weekly Globe will be the vehicle of the miscellaneous of the daily paper, with a synopsis of the Congressional Globe, and a synopsis of the Congressional Globe will embody, as it has done for sixteen years, Congressional proceedings and debates merely.

An Appendix will embrace the revised reports separately, and the messages of the President of the United States, and the reports of the Heads of the Executive Departments. The Congressional Globe and Appendix will be published weekly, and the Appendix will be published as a number. Subscribers may expect one number of each.

their own lives. In this particular, but have confined their action to efforts intended to eradic the public mind of the Nation on the vitally important subject—feeling sure that the only way to free the Nation from the curse of slavery, they will find a way;—a plan of fagion, just, humane, and practicable, will be devised and put upon, and that with firm wisdom and courage will be followed, and the Nation will be freed from the curse fully. Such a plan will doubtless be agreed upon at the call of the friends of the cause, to be held at some eminent point, shortly after the Presidential election, and will be dictated by the Examiner with whatever ability it possesses.

The Examiner does not participate in party politics. It is on the good and patriotic of every party in the State to be in the front of the movement for the redemption of Kentucky from the thral of slavery. So

the time is at hand in which the effort is to be made. The

K. K. K. is a society of men, pretending to consoy the minds
 of the ignorant, but in reality it is a society of men, who
 are infatuated on a subject that so vitally concerns us. The
 motives of the Examiner, therefore, call upon the active
 class of Emancipation in Kentucky to add them in their
 efforts to extend the circle of knowledge, and a hearty response
 prove that the call is not made in vain.
